(regular meeting, 6:15pm)

Check www.bcpsk12.net board page for meeting specifics and locations.

Work Sessions will be scheduled as needed.

Upon request at least ten (10) days prior to a meeting, the District shall make reasonable accommodations for a person with disabilities to be able to attend and participate. Contact the Facilities Director at 616.878.6100.

There is a time for public participation during a meeting as indicated in the agenda.

Official minutes are available and stored at the administration office.

BYRON CENTER
PUBLIC SCHOOLS

As we enter the final weeks of the 2022-2023 school year, it is wonderful to reflect on all the great things our students, teachers, and the staff have accomplished at Byron Center Public Schools. Our achievements in academics, fine arts, and athletics give us many reasons to celebrate!

As I look back on this school year, there are so many fond memories that showcase our Bulldog pride. There have been wonderful celebrations of academics. March is always a great time to highlight our students' love for reading with the excitement that comes around Reading Month. The fine arts continue to shine on so many levels, with many special events taking place, such as the Festival of Voices at the Van Singel. It was great to hear all the talented students back on stage after a long pause of this event. Our student-athletes continue to have great success on and off the field by showing exemplary sportsmanship to make Byron Center proud. Along with all these accomplishments, our Bulldogs keep the world around BC at the forefront. They truly understand that their actions make a big difference in the lives of all the people around them. With the partnership of parents and the hard-working staff members of BCPS, it helps create opportunities for all students to have an outstanding opportunity to learn and grow.

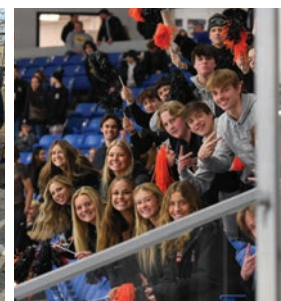

With all this fantastic success, Byron Center Public Schools continues to grow. It is a destination district that draws families to our community. The new Nickels Intermediate School is set to open in the fall, allowing more space for our 5th and 6th graders to learn. The current Nickels Intermediate building will be transformed into a fourth elementary school and is expected to open in the fall of 2024. We are proud of our growth and excited to expand our Bulldog community.

I want to thank the Board of Education, staff, parents, and the entire community for supporting Byron Center Public Schools and our students. We get to do extraordinary things because of your support, and those extraordinary things are what make BC so great. I am looking forward to finishing the school year strong with more great memories to come.

Sincerely,

Kevin Macina, Ph.D.
Superintendent of Schools

Stay informed! Check out Byron Center Public Schools on Facebook, Twitter, and Instagram for information on school closings, upcoming events, and more!

Bond Update

Progress continues on the new Nickels Intermediate School. Construction leaders said the building will be ready for students and staff by the end of summer, just in time for the 2023-2024 school year!

“Our staff has a sense of ownership with the new building because we have been a part of the process. We can’t wait to get into the building next school year,” Nickels Intermediate Principal Tom Trout said.

Following the move to the new Nickels, the old building on Byron Center Ave. will be renovated and turned into a fourth elementary school. The extra building is crucial as Byron Center continues to welcome new families into the district.

“It’s great because there will be a lot of new things to it and a bigger building with more stuff to do.” - Alexa Barr, current 5th grader

“I’m really excited for a new building because we’re going to be the first ever 6th graders in there.” - Silas Buter, current 5th grader

Unified Champion

Byron Center High School, West Middle School, Nickels Intermediate, and Marshall Elementary were named Unified Champion Schools through the Special Olympics for their support of the LINKS program. LINKS is an inclusion program at BCPS where students partner together to engage and learn throughout the school day and beyond. Students partner around school work, social behaviors, and building independence.

Being a Unified Champion School allows Byron Center to promote inclusive opportunities for students with and without disabilities, focusing on youth leadership and sports engagement.

Kids Heart Challenge

Byron Center Public Schools elementary students participated in the Kids Heart Challenge to learn about heart health and overall wellness. Brown, Countryside, and Marshall raised more than \$60,000 for the American Heart Association during the challenge.

Kids Food Basket

Byron Center High School, West Middle School, and Nickels Intermediate students, staff, and the community came together for the Kids Food Basket's spring food drive. The organization serves kids 0-17 in Kent, Muskegon, Ottawa, and Allegan counties who are food insecure. The National Honor Society, Junior National Honor Society, and Nickels Student Leadership Team organized the food drive to collect healthy snacks so area students won't go hungry. Together, BCPS collected more than 500 pounds of food to help the community!

Polar Plunge

The Byron Center Boys Swim/Dive Team took the Polar Plunge to raise more than \$1500 for the Special Olympics. A very cold dip for our student-athletes, but we're proud of them for giving back to their community.

ACADEMICS

In the Classroom

Countryside Elementary 4th graders got some hands-on learning dissecting sharks. Dissection is a great opportunity to allow students to see how everything in the body fits and works together. Some students were more excited about the assignment than others...

Spelling Bee

5th grader Buyaung Zawngbuk is a Spelling Bee C-H-A-M-P-I-O-N! 5th grader Toby Nguyen was the runner-up at the annual Nickels Intermediate competition.

Global Travel Fair

West Middle School 7th graders took fellow students and their teachers around the world with their Global Travel Fair Projects. The students picked and researched a country, then taught tourists all about their country, including government, currency, music, climate, food, and more.

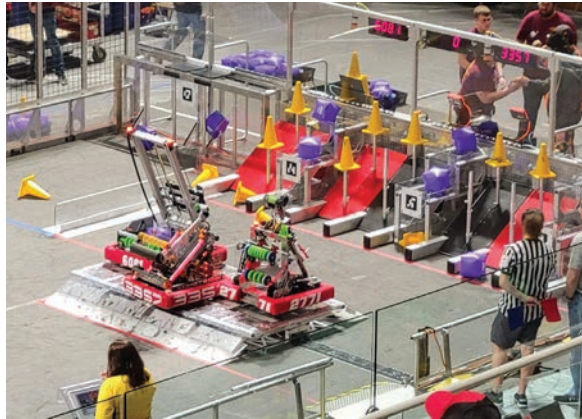

Science Olympiad

The Byron Center High School Science Olympiad team made school history by winning a record number of medals. During a regional competition at Grand Valley State University, every team member walked away with at least one medal. The team also competed in the state finals for the second time in school history, taking home medals in three events!

Code Red Robotics

Byron Center High School's robotics team, Code Red Robotics, had a successful season. The team won its first competition of the year at Calvin University. During the season, Code Red Robotics was given a Creativity Award and the FIRST Impact Award, which is awarded to the team that best represents a model for others to follow.

The team competed in the Michigan State Championship and traveled to Houston, Texas, for the World Championship where more than 600 teams competed!

Battle of the Books

Nickels Intermediate 5th and 6th grade students competed against each other in a Jeopardy style competition, testing their knowledge on various books. The 5th graders came out on top, beating the 6th graders and breaking a school record for the most points earned in a Battle of the Books competition.

READING Month

Author Visits

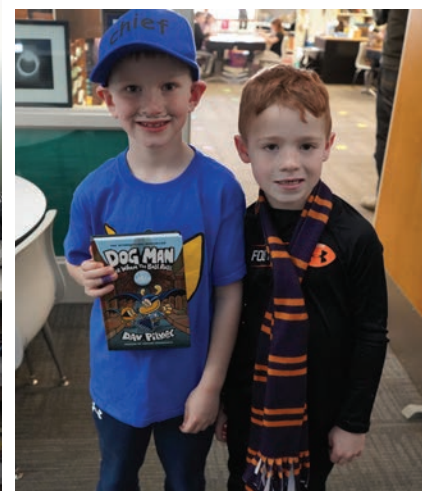

Author Jennifer Shaw visited Marshall Elementary to share her book, *Dumplings Mean Family*. The book is told from Shaw's son Ethan's perspective, as he shares what it was like to join their family after his adoption. Shaw shared how this book was a family effort, with her oldest daughter Rinnah serving as the illustrator. Shaw introduced a new culture to students and even inspired some to try out the dumplings recipe printed in the book.

Author Karen and Illustrator Darrin Brege visited Brown Elementary to teach students how reading has influenced their lives. Karen is the author of the bestselling children's series

Mick Morris Mystery Solver. She explained the writing process to students and how reading helped her become a better writer. Darrin is the cover artist and illustrator for the *Mick Morris Mystery Solver* book series. He even taught students a few simple steps to follow when drawing their own cartoon characters.

Who is Your Favorite Book Character?

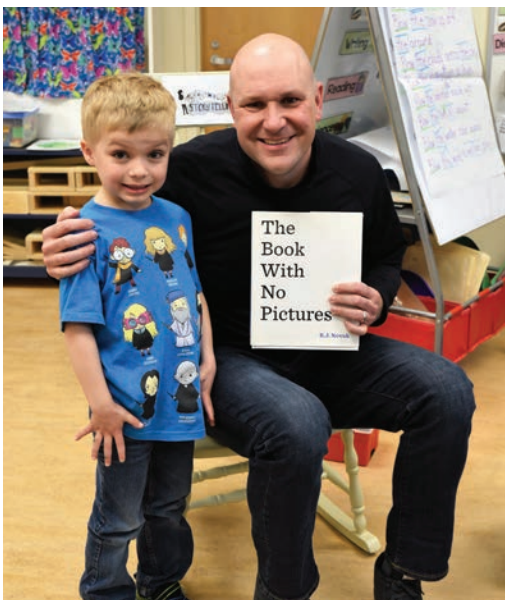

Byron Center Public Schools K-6 students collectively read more than 12,000 hours or 720,000 minutes during Reading Month 2023!

Brown Elementary went to outer space! They hosted a magician, author, and illustrator to get everyone excited about reading. Students exchanged book recommendations, read with their reading buddies, and dressed up as their favorite book characters.

Countryside Elementary had a ball! The celebrations included inviting special guests to read with students, such as former staff, Principal Cindy Viveen, and Dr. Macina. Each student set their own WIG (wildly important goal) to reach during the month.

Marshall Elementary took a trip around the world! They welcomed an author and guest readers and invited parents from other countries to talk about their experiences in other places. Schoolwide, students set a goal to read for 2023 hours. They crushed it by reading 3245 hours.

Nickels Intermediate got wild about reading! The whole school turned into a safari, and students were challenged to read as many books as possible. There was even a book bracket challenge, where students got to vote for their favorite book. The winner was *Steve the Dung Beetle: On a Roll*.

Scholastic Awards

Byron Center middle and high school students won Scholastic Art Awards. West Middle School students earned 85 awards across 16 categories, with 41 Gold Keys.

“To have this many awardees earn that honor from our age group is unheard of, and I cannot emphasize enough the level of success our students achieved this year,” WMS Visual Arts Teacher Janine Campbell said.

Byron Center High School students earned 46 art awards. In addition, senior Allison Vandersloot won TWO National Scholastic Silver Medal Awards in Writing! She won in the categories of Novel Writing and Flash Fiction.

“It has been my honor to work with Allison for the past two years as she developed her voice in writing,” BCHS Media Arts Instructor Julie VanderLaan said. “In this time, Allison has written two novels and numerous short stories.”

Road to Ellington

Byron Center Jazz Orchestra has ONCE AGAIN been selected for the Essentially Ellington High School Jazz Band Competition & Festival in New York City. As part of the honor, the Lincoln Center sends a special guest to work with the young musicians. BCPS students welcomed Trumpet Artist Bijon Watson!

Top 100

West Middle School students Avery, Sharon, and Leo made the Top 100 in the 2023 Michigan Art Education Association Statewide Art Show. Take a look at their amazing work!

Solo & Ensemble Festival

Byron Center Public Schools band and orchestra students performed at the Michigan School Band and Orchestra Association District Solo & Ensemble Festival. Students received 66 first division ratings and 31 second division ratings.

“Success at this festival denotes a key aspect of success in our overall programs as this is an individual festival where performances are rehearsed and led by the students,” BCHS Fine Arts Director Marc Townley said.

Seventy band and orchestra students went on to perform at the State Solo & Ensemble Festival. They earned 34 first division ratings and 18 second division ratings.

In addition, the BCHS Clarinet Choir was named one of the Outstanding Overall Ensembles in Michigan!

Cinderella

Byron Center Theatre students put on a production of Rodgers and Hammerstein's *Cinderella*. This modern take on a classic and heartwarming fairy tale gave students the chance to bring magic, joy, heartache, and laughter to the audience.
