

School Closing Menu Procedure

What is on the lunch menu when students come back to school after an unscheduled school closing, for example a snow day?

The lunch planned for the “Snow Day” menu is served the next day school resumes. The kitchen staff prepare a day in advance therefore the food for the “Snow Day” menu is already prepped and ready to cook.

For example: school is canceled on Tuesday and resumes on Wednesday, Tuesday’s lunch is served on Wednesday when the students return. Wednesday’s lunch will be SKIPPED entirely. On Thursday, we will be back on schedule with Thursday’s menu.

SCHOOL CLOSURE FOR MULTIPLE DAYS: • In the event the school closes for consecutive days in a row, no hot lunch will be served during that time. • When school opens up the following procedure will be followed: The lunch that was to be served on the first snow day will be served and then the current menu will be followed for the following school day.

For example: If the school closes on Monday and resumes on a Wednesday, the lunch will be what was on Monday. Then the calendar menu will pick back up for the following day (what the lunch choice would be on Thursday).
